

**Be the flag bearer of a two-decade long safety track record**

# **Health, Safety & Environment (HSE) Specialist**

Chevron Lubricants Lanka PLC (CLLP) is the market leader in the local lubricant industry and part of the global energy company; Chevron Corporation USA. Laying claim to over two decades of injury-free operations, CLLP has earned a reputation as one of the safest manufacturing operations in Sri Lanka. We are seeking a dedicated and experienced **HSE Specialist** to join our team and write the next chapter of our success story.

Based at our lubricant manufacturing plant in Sapugaskanda, this role supports our plant, base oil terminal at Mutwal and Head Office in Colombo. Reporting to the Regional HSE Team Lead, the HSE Specialist will perform a key influencer role.

## **The Job Role:**

- Provide HSE expertise and guidance to CLLP leadership and operations on permit to work practices to proactively manage risks and protect the environment.
- Execute risk reduction plan recommendations, assurance activities, country-level emergency response activities, contractor qualification and day-to-day contractor management.
- Conduct internal and external environmental reporting, regulatory requirements, action item tracking including Management of change (MOC) and delivery of all Operational excellence (OE)/HSE related trainings.

## **Candidate Profile:**

- Technical knowledge and field experience in providing HSE regulatory guidance and expertise to Operations, Engineering and HSE personnel.
- Experience in managing and supporting permit to work practices, MOC and Risk Management, emergency management and incident investigation.
- Demonstrated ability to plan and manage high-risk, high-consequence projects and the implementation of critical safeguards.
- Knowledge of in-country regulations in relation to health, safety, and environment.
- Bachelor's Degree in HSE or Engineering preferred with a minimum of 3 years' experience OR Diploma or equivalent in HSE or Engineering with a minimum of 5 years' experience in a chemical plant, refinery or as an HSE professional with a reputed organization.
- Ability to lead employees and contractors to perform their jobs safely, reliably, efficiently, and in compliance with all applicable laws, regulations, and company policies.
- Strong relationship-building skills and ability to work collaboratively in a team environment.
- Demonstrated success in leading and executing change in an operating environment.
- Effective oral and written communication in English and Sinhalese.
